	APPROVAL OF STATE ENGINEER				
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the					
underground source as heretofore granted under Permit 27468 is issued subject to the terms and conditions imposed in said Permit 27468 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.					
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not					
to e	xceed 0.32 cubic feet per second; but 1	not to exceed a yearly			
	duty of 4.0 acre-feet per acre of land irrigated from any	and/or all sources.			
Actı	ual construction work shall begin on or before	September 14, 1978			
Proof of commencement of work shall be filed before.  October 14, 1978					
Wor	k must be prosecuted with reasonable diligence and be completed on or before	September 14, 1978			
	of of completion of work shall be filed before				
App	lication of water to beneficial use shall be made on or before	September 14, 1978			
	of of the application of water to beneficial use shall be filed on or before				
Map in support of proof of beneficial use shall be filed on or before
